BACKGROUND

In November 2012 the Solano Community College District ("District"), to be responsive to the needs of students and the community, approved Bond Measure Q. Funding is planned for newly constructed buildings and the renovation and modernization of existing classrooms and other buildings to current health and earthquake safety standards. One of the main goals of the program is to provide additional science labs and other classrooms to allow the District to offer more job training and workforce development courses and programs to their students.

REQUEST FOR QUALIFICATIONS

In order to implement the Measure Q program, the District is seeking to establish a pool of qualified firms (aka “teams” or “entities”) to provide special inspection and testing services for various projects funded therein. The pool will include four (4) to six (6) teams who understand the wide range of inspection and testing needs inherent to community college bond programs, and who are sufficiently experienced to meet those needs. The selected team(s) will be directly responsible for conducting the inspections and tests needed to meet the requirements of the Division of the State Architect (DSA), and reporting inspection/test results to the District.

Experienced firms (aka ”teams” or “entities”) interested in being considered for inclusion in this pool must submit a Statement of Qualifications (“SOQ”) as set forth in this Request for Qualifications ("RFQ"), which defines the services sought by the District and generally outlines the requirements for submittal. The actual number and size of teams selected for the pool will vary based on qualifications and the right fit for the District. Selection into the pool does not guarantee selection for any specific project.

Respondents to this RFQ must mail or deliver one (1) unbound hard copy, eight (8) bound copies and one (1) electronic copy (disk or flash drive, Word or PDF format) of the SOQ as further described herein, to:
