

To ensure equitable distribution of funds, the PDFC committee reserves the right to not fund or to partially fund a request based on the professional development needs of ALL faculty.

The PDFD committee *may* request additional information (see questions below) from faculty applying for PD funds a second time during the same year (defined as August to August).

1. Provide evidence of how you incorporated your most recently funded professional development into your work at SCC.
2. If funded, how will you incorporate this professional development into your work at SCC?
3. Specify how this professional development is substantially different from or builds upon the previously funded professional development.
