Tassel Software

Building Career and Academic Communities to Support Guided Pathways

www.tasselsoftware.com

@TasselSoftware

WITH TASSEL SOFTWARE'S ACADEMIC AND CAREER COMMUNITY PLATFORM WE

Support publication of Clear Academic Pathways (Guided Pathways)

Support navigation of Occupational and Labor Market data

Publish profiles of employers that work with the college

SO COMMUNITY COLLEGE STUDENTS CAN

- Increased awareness of how a degree program is structured
- Increased awareness of course dependencies
- Increased awareness of programs with pathways to certain occupations
- Increased awareness of jobs companies are looking to fill
- Increased awareness of Companies that are accessible to institution graduates

Build a personalized academic plan with a career goal

Increased motivation to a certain career

Increased ownership of their personal plan

Increased motivation to complete program

Graduate in shortest possible time
(least number of units)

Uplift the regional economy and helping people break the cycle of poverty

COURSES

PROGRAM MAP

OVERVIEW

CRC's art curriculum offers introductory and intermediate level courses in painting, figure drawing, digital art, drawing, sculpture, ceramics, printmaking and design, as well as courses in art appreciation and art history. Through the program's art theory and art practice classes, students develop an awareness and understanding of the materials, tools, rationale and significance of art in society. The art curriculum's critical thinking and technical skills components encourage students to utilize independent thought processes and problem solving.

PROGRAM MAP

ASSOCIATE DEGREE

A.A. In Accounting

This Program Provides Training For Entry-Level Employment In Private Industry, Government Accounting, Or For Self-Employment As A Provider Of Computer-Based Bookkeeping And/Or Tax Services. In Addition, Those Individuals Already Employed In Accounting Can Work Toward Career Advancement By Taking Additional Courses. Generally, Employment In This Specialization Also Requires Proficiency In Computer Applications And Good Communication Skills.

Highlights Include:

- ✓ A Traditional Course Of Study In Accounting Fundamentals, Financial Reporting, Managerial Analytical Techniques, State And Federal Income Taxation, Cost Accounting, And Auditing
- ✓ State-Of-The-Art Software And Equipment To Provide Computerized Accounting Training
- ✓ Internships, Work Experience With Local Employers For College Units, Job Shadowing, Guest Speakers From The Accounting Industry, Field Trips To Accounting Offices
- ✓ A Lab With Tutorial Assistance

PROGRAM MAPS (PDF)

- ✓ General And Operations Managers (Pdf)
- ✓ Legislators (Pdf)
- ✓ Advertising And Promotions Managers (Pdf)
- ✓ Green Marketers (Pdf)

Note To Transfer Students:

If You Are Interested In Transferring To A Four-Year College Or University To Pursue A Bachelor's Degree In This Major, It Is Critical That You Meet With A CRC Counselor To Select And Plan The Courses For Your Major. Schools Vary Widely In Terms Of The Required Preparation. The Courses That CRC Requires For An Associate's Degree In This Major May Be Different From The Requirements Needed For The Bachelor's Degree.

CCN is a different news platform where we focus on highly self-motivated individuals that are eager to improve their skills and output as digital journalists and editors. CCN does not have offices around the world, which minimizes the fixed costs. This allows us to spend money on what matters, our team, and our human capital.

Numbers and stats drive CCN. It is highly competitive, and only a handful of writers get through the first month at CCN. While it is hard, it is also rewarding for the writers and editors that can thrive working for CCN. We reward journalists with a hefty bonus for each article that drives traffic to CCN.

At CCN, we have a flat hierarchy where we all communicate on Slack. The possibilities for journalists on CCN are endless. We adjust your PPW according to your performance. The more you perform, the higher you are paid per word &, the higher your bonuses will be.

Writers on CCN will learn how to drive traffic, how to write for the digital age, how to engage readers. Longterm writers get access to our Google Analytics and can follow real-time traffic of their stories.

At CCN, you can get a full-time position, part-time position, and you can be promoted to become a full-time editor if it is a fit.

If you perform, you'll be rewarded.

Our highest paid journalists earn anywhere from $7,000 to $12,000 per month. This is expected to increase in the years to come.

CCN Is Currently Seeking US/Europe Based Journalists To Cover US Financial Markets, US Economic/Political News, And Global Affairs.

We Are Looking For:

- ✓ Full-Time Editors
- ✓ Full-Time Journalists
- ✓ Part-Time Journalists

Our Ideal Candidates Must:

- ✓ Have extensive knowledge of US Stock Markets, ETFs, Bonds, Currencies, and more
- ✓ Have a broad understanding of publishing content online (WordPress, SEO) as a professional writer well-versed in the English language
- ✓ Have the drive to pitch and suggest interesting, relevant topics for coverage on CCN, before submitting them
- ✓ Have the insight to look for news stories from around the world to fuel 24-hour coverage of the news cycle
- ✓ Be open to attending industry events and conferences locally, when necessary
- ✓ Be willing to quickly learn the ropes in a small but rapidly-growing team
- ✓ Be willing to produce 3-5 articles/day as a minimum (for a full-time contributor)
- ✓ Or be willing to produce 5+ articles/week (for a part-time contributor)

YOUR CV

Please submit your cover letter and a CV with your age and address, and attach at least two samples that demonstrate your proficiency

SALARY

Also, do include your salary requirements and/or usual pay per word rate for this position, and send it to

IOS Software Engineer
Apple | San Jose, CA

Hardware Design Engineer
Apple | San Jose, CA

IOS Software Engineer
Apple | San Jose, CA

You will be responsible for creating, maintaining, and improving iOS applications to support Apple software engineering and project management teams.

You will identify areas to provide support and deliver well-documented, well-tested, and well-written software all the while reaching scheduled landmarks, and meeting deadlines. You should be able to work independently on individual projects, and we will work collaboratively on larger projects. As a development team, we are expected to iterate frequently, deliver continuously, and improve constantly.

You will work rapidly, but also have a natural inclination towards following widely accepted industry best practices, along with the perseverance, persistence, and motivation that goes along with it.

Requirements

- 3+ Years In A Software Development Role
- Strong Experience With Object-Oriented Programming
- Strong Fundamentals In Data Structures & Algorithms
- Strong Programming Skills In Swift And Objective-C
- Experience With Apple's Development APIs (Cocoa, Cocoa Touch, UIKit)
- Ability To Design User Interfaces And Execute With Attention To Detail
