Why Giving is Important

The COVID-19 pandemic continues to affect how we live and work. Now, wildfires in Solano County and the surrounding region have also impacted individual Solano Community College students, faculty and staff. Some have lost healthy lives, while others have lost homes, family, friends and their livelihood.

In response to the overwhelming impact these events are creating for students and employees of Solano Community College, we have created an emergency fund. The fund will provide resources for those who need immediate assistance with essential expenses, such as housing, transportation, academic support materials, food and childcare.

This fund is an opportunity for you to support the Solano College community. You may direct your donation to the Student Emergency Fund, Employee Emergency Fund or Where the Need is Greatest. In challenging times, there is nothing more important than coming together as a community to share our resources for the well-being of all.

Thank you for considering a donation; no amount is too small.
