WHAT IS COASTAL CLEANUP DAY? "Quite possibly, it's the world's biggest beach party!" California Coastal Cleanup Day, an annual beach and inland waterway cleanup since 1985, is the state's largest volunteer event. Volunteers from Huntington Beach to Hong Kong will do their part to clean up their local beaches, rivers, creeks and parks on Saturday, September 20.

Last year alone, 648,015 volunteers in 92 countries collected over 12 MILLION pounds of ocean-bound garbage. There's no other single-day volunteer event that even comes close to the impact of Coastal Cleanup Day. When combined with the International Coastal Cleanup, organized by [Ocean Conservancy](http://www.oceanconservancy.org) and taking place on the same day, California Coastal Cleanup Day becomes part of one of the largest volunteer events in the world.

WHY ARE BEACH CLEANUPS IMPORTANT? California's coast and waterways have historically been collecting spots for annual accumulations of trash and debris. This debris, if not removed, can be harmful and even fatal to all manners of marine wildlife, can damage our state's economy, and can even become a human health hazard. Coastal Cleanup Day is a great way for families, [students](#), service groups, and neighbors to join together, take care of our fragile marine environment, show community support for our shared natural resources, learn about the impacts of marine debris and how we can prevent them, and to have fun!
