## QUALITY EDUCATION AT AN AFFORDABLE PRICE (see chart below)

As a full-time student at Solano Community College (SCC), you can expect to pay a little more than \$1,080 in annual fees (30 units at \$46/unit). You'd pay more than \$ 5,778 a year at a California State University (CSU) campus and \$11,893 at a University of California (UC) campus. SCC offers many financial aid options and scholarships to help you maximize your financial resources.

\*Applies to California residents; excludes cost of textbooks, materials fees, transportation/parking, and room & board. Fees subject to change due to State budget.

## INCREASE YOUR EARNING POWER

SCC graduates earn as much as twice the State's average wage in some cases. The average lifetime income of a SCC graduate with an associate degree is more than \$1 million—about \$250,000 more than a person with only a high school diploma. Employers also recognize the value of an SCC education. Many SCC students receive job offers immediately upon completion of our highly popular technology and healthcare career programs, for example.

SOURCE: U.S. Department of Commerce, Census Bureau, Current Population Reports.

Associate of Arts and Science degree holders earn 22% more than those with a high school diploma.

## TRANSFER TO A 4-YEAR UNIVERSITY

Solano Community College is the place to begin your B.A. degree! You are able to complete lower division general education and major preparation courses prior to transferring to any public, independent, or out-of-state college or university of your choosing. Solano students may be guaranteed admission to many UC and CSU campuses through Transfer Admission Guarantee (TAG) programs. It is important to work closely with your Solano counselor to develop an appropriate educational plan. Please visit the Transfer Center in Room 402 or ask your counselor for more information.

## OUTSTANDING FACULTY

SCC faculty are recognized regionally, state-wide, and nationally for their excellence in the classroom. They've joined the SCC faculty because they love working with students.

**Solano Community College is now a SMOKE FREE CAMPUS July 2012-June 2013 smoking will be allowed at designated areas only.**

## HEALTH FEE EXEMPTIONS

Since the provision of health services is very expensive and the California Community College system does not have sufficient funds to subsidize student health services, the State Legislature mandates that the burden of supporting a student health center will be shared by all Solano Community College students through a general fee, regardless of whether they utilize the health center or have their own insurance.

The following students are exempt from paying the mandatory health fee:

- (1) Students who depend exclusively upon prayer for healing in accordance with the teachings of a bona fide religious sect, denomination, or organization.
- (2) Students who are attending a community college under an approved apprenticeship training program.

Students who fall within any one of the two grounds for exemption may apply for a fee waiver by submitting a written request to the Office of Student Development.

# Online Classes

Solano Community College offers two types of Internet classes for credit: online and hybrid classes. Online classes are taught over the Internet and hybrid classes are taught partly over the Internet and partly in the classroom. These classes have regular assignment schedules and reading material and the same learning requirements as traditional classes. Participation in online sections and hybrid sections require that students have a computer with Internet access and a web browser. The individual classes will also have additional requirements such as a textbook and possibly a specific software program to be used. You might also have to come to campus for an in-person exam.

**Online:** These classes utilize the Internet to create an educational experience that can be completely independent of time and place. Students still purchase textbook(s) and take tests, but they do the majority of the classwork at a computer connected to the Internet. They work according to their own schedule, at home, in the office, or on open access computers on campus in the library. Course materials, the syllabus, assignments, tests, and links to other Web resources, are contained on the course site. Students communicate with their instructor, and each other, by sending and receiving email and by participating in "threaded discussions." These are discussions that continue over time where students drop in to read the

comments and to add their own. While online classes may not be for everyone, they are well-suited to students who are self-motivated, who have access to a computer, who may have busy schedules and who may not be able to travel to campus for classes with specific meeting times.

**Hybrid:** These classes use a combination of the face-to-face and online formats. Some activities will be conducted in a group (traditional class) format and some activities are conducted (online). These classes offer the best of both worlds - flexibility with the online portion and the sense of being in a group with the traditional class meeting

# How to read this schedule

## COURSE NUMBERING SYSTEM

The following numbering system indicates transferability, pass or no-pass status and other related information. For specific transfer information, consult a counselor and refer to the catalog of the prospective transfer institutions.

## CLASS NUMBERS

**001-049** - Qualify for an AA/AS Degree; transfer to the University of California system and the California State Universities system.

**050-099** - Qualify for an AA/AS Degree and transfer to the California State Universities system.

**100-199** - Qualify for an AA/AS Degree but, generally, do NOT transfer to four-year institutions. Some classes may be used to meet requirements in certain majors at some four-year institutions.

**300-399** - Credit classes which DO NOT apply to an AA/AS Degree. Exception: One English class below English 001 which may be applied to an Associate Degree as an elective. Classes do not transfer to four-year institutions.

**500-599** - Non-credit classes.

## IMPORTANT DEFINITIONS

**ADVISORY** – A class or equivalent preparation that will broaden the student's learning experience in a subsequent class.

**CRN** – What was previously known as a SECTION number is now known as a CRN number.

**CO-REQUISITE** – Some classes require enrollment in both the lecture and the lab, or are part of a learning community that requires enrollment in all classes within the community. Your enrollment in a

class with a co-requisite is blocked until you have completed or enrolled in the co-requisite class.

**PREREQUISITE** – A class or equivalent preparation that must be completed before enrolling in another class. Your enrollment in a class with a prerequisite is blocked until the requirements of the prerequisite are satisfied.

**OPEN ENTRY** – Class that can be added to a program of study up to the last day to drop a full-term class.

**OPEN EXIT** – Classes that can be completed by fulfilling class requirements at any time during the semester.

**SCC MINIMUM ENGLISH AND MATH STANDARDS** – The minimum English standard is eligibility for enrollment in English 370; the minimum math standard is eligibility for enrollment in Math 330.

**STUDENT ID NUMBER** – We assign a unique 9-digit number to you when you apply for admission. If you attended Solano prior to Summer 2008, your Student ID Number transferred over to the new system.

**CLASS CANCELLATION** – The College reserves the right to cancel any class that does not meet minimum enrollment requirements or has unexpected staffing or facility situations that cannot be satisfactorily resolved. Class times and/or room assignments are subject to change; changes are posted outside the Office of Admissions and Records, Building 400, Fairfield Campus, and at the Vallejo and Vacaville Centers for classes scheduled at these locations. Call (707) 424-2431 for class times and room changes at Travis Air Force Base.

## ATHLETICS

Students should be aware that there are inherent risks involved in any Kinesiology class. Students must notify the instructor of any medical condition they have, or have had in the past, that may impact their ability to participate in the class. Discipline Note: Intercollegiate athletics is for those students who wish to compete against other students at an advanced level of sport from other community colleges. To be eligible, student-athletes must be continuously enrolled in a minimum of 12 units during the semester of competition. For second year of competition, the student-athlete must have completed 24 units between seasons of competition with a minimum of a 2.0 grade point average.

## KINESIOLOGY

Students should be aware that there are inherent risks involved in any Kinesiology class. Students must notify the instructor of any medical condition they have, or have had in the past, that may impact their ability to participate in the class. Discipline Note: Intercollegiate athletics is for those students who wish to compete against other students at an advanced level of sport from other community colleges. To be eligible, student-athletes must be continuously enrolled in a minimum of 12 units during the semester of competition. For second year of competition, the student-athlete must have completed 24 units between seasons of competition with a minimum of a 2.0 grade point average.

**OCCUPATIONAL EDUCATION**

NOTE: Students enrolled in OCED 090 may not enroll in OCED 091 during the same semester. Students may take OCED 090 to a maximum of 16 units. Combined units in all work experience courses shall not exceed 16. Note: CSU will accept up to 12 units for transfer. To determine the correct course length and number of units in which to enroll, refer to the following formula for paid employment (unpaid work requires fewer hours per week): Full Semester Sections: 1 unit=5 work hours per week, 2 units=10 work hours per week, 3 units =15 work hours per week, 4 units =20 work hours per week, 5 units - 25 hours per week, 6 units = 30 hours per week, 12-Week Sections: 1 unit =7 work hours per week, 2 units =14 work hours per week, 3 units =19 work hours per week, 4 units = 25 hours per week, 8-Week Sections: 1 unit =10 work hours per week, 2 units =20 work hours per week, 3 units = 28 hours per week. Discipline Note: Students enrolled in online sections of OCED 090 and OCED 091 are required to attend a one-time on-campus orientation. Both orientations will be held in Room 812 (Building 800). There will be two (2) orientations from which to choose: Orientation #1: Friday, August 16, 2013, from 6:00-8:00 pm; Orientation #2: Saturday, August 17, 2013, from 12:00-2:00 pm.

# Online Classes

Solano Community College offers two types of Internet classes for credit: online and hybrid classes. Online classes are taught over the Internet and hybrid classes are taught partly over the Internet and partly in the classroom. These classes have regular assignment schedules and reading material and the same learning requirements as traditional classes. Participation in online sections and hybrid sections require that students have a computer with Internet access and a web browser. The individual classes will also have additional requirements such as a textbook and possibly a specific software program to be used. You might also have to come to campus for an in-person exam.

**Online:** These classes utilize the Internet to create an educational experience that can be completely independent of time and place. Students still purchase textbook(s) and take tests, but they do the majority of the classwork at a computer connected to the Internet. They work according to their own schedule, at home, in the office, or on open access computers on campus in the library. Course materials, the syllabus, assignments, tests, and links to other Web resources, are contained on the course site. Students communicate with their instructor, and each other, by sending and receiving email and by participating in "threaded discussions." These are discussions that continue over time where students drop in to read the

comments and to add their own. While online classes may not be for everyone, they are well-suited to students who are self-motivated, who have access to a computer, who may have busy schedules and who may not be able to travel to campus for classes with specific meeting times.

**Hybrid:** These classes use a combination of the face-to-face and online formats. Some activities will be conducted in a group (traditional class) format and some activities are conducted (online). These classes offer the best of both worlds - flexibility with the online portion and the sense of being in a group with the traditional class meeting

# Academic Integrity

*Upon completion of Solano Community College's General Education program, a student will demonstrate competency in the following areas:*

## HONOR CODE

At Solano Community College, we believe that Academic Integrity is fundamental in an institution dedicated to personal development through learning, free inquiry, and the exchange of ideas. Honest work is an integral part of the learning process: it builds self esteem, knowledge, and skills. It is the responsibility of every Solano Community College student to represent work truthfully and engage honestly in all assignments.

We believe that any instance of academic dishonesty hurts the entire college community. Solano Community College defines academic dishonesty as:

- Plagiarism or knowingly or unknowingly using someone else's ideas, words, or thoughts without giving credit to the source
- Receiving or providing unauthorized assistance on assignments and/or exams
- Using unauthorized materials during an exam
- Fabrication of data or references
- Denying others access to information
- Forgery, alteration, or misuse of documents, records, or identification

## Solano Community College will not tolerate Academic Dishonesty.

You are responsible for this information as well as the information available in the Student Handbook, the Schedule of Classes and the Solano Community College Catalog, which is available online at [www.solano.edu](http://www.solano.edu).

At the heart of any institution of higher learning is the fundamental right of Academic Freedom for which Honesty and Integrity are preconditions. Academic Integrity is therefore fundamental to the Solano Community College community.

Academic Integrity is maintained only when all academic work is the product of identified individuals. Any act of Academic Dishonesty interferes with Academic Integrity and therefore the core values of this institution. All violations of Academic Integrity on the part of any member of the academic community constitute a serious offense.

Examples of Academic Dishonesty include:

### Plagiarism:

Plagiarism consists of taking the exact words or the specific substance, structure or ideas of another and passing these words or ideas off as one's own in any academic exercise. The following examples are some of the many forms plagiarism may take.

1. Submitting a term paper, examination or other work written by someone else. This includes extended paraphrasing of another's work or research. This is a flagrant instance of plagiarism.
2. Failure to give appropriate credit for ideas, statements of facts, conclusions, or exact words derived by another either in the text or as a footnote.
3. Failure to use quotation marks or appropriate indents when using the exact words of another, whether it be a paragraph, a sentence or even a portion thereof.
4. Usage of any electronic media without providing proper citations, including the Internet, email, copied postings, or any other source of information available electronically.
5. The citing of a source which does not reasonably conform to these expectations, such as another plagiarized or otherwise undocumented paper or other resource.

Plagiarism can, in some cases, be a subtle issue. Any questions about what constitutes plagiarism should be discussed with the faculty member or a Solano Community College faculty librarian.

### Cheating:

Cheating is the usage of unacknowledged or unauthorized notes, materials, information, calculators, electronic devices, or study aids in any academic exercise. Cheating also includes: using information from another student or student's paper; altering a graded work after it has been returned then submitting the work for re-grading without instructor permission; submitting another's work under one's own name. Students must not request others (including commercial term paper companies) to conduct research for them. Students may be restricted from leaving the classroom during an exam period.

### Fabrication:

Fabrication is the falsification of any information or citation in an academic exercise. Fabrication includes presenting data not gathered in accordance with guidelines defining the appropriate methods for collecting or generating data or failing to include an accurate account of the method by which the data were generated or collected. "Invented" information may not be used in any laboratory experiment or other academic exercise without authorization from the instructor. The student must also acknowledge reliance upon the actual source from which cited information was obtained. A writer should not, for example, reproduce a quotation from a book review and indicate that the quotation was obtained from the book itself.

# Academic Integrity

## **Facilitating Academic Dishonesty:**

Students who knowingly or negligently allow their work to be used by other students or who otherwise aid another student in violating Academic Integrity are guilty of Academic Dishonesty even though they may not benefit directly from the violation. Facilitating Academic Dishonesty includes making one's research, notes, essays, or other work available for other students to access such as uploading one's work to the Internet or making it otherwise available.

## **Denying Others Access to Information:**

It is a violation of Academic Integrity to deny others access to scholarly resources, or to deliberately impede the progress of another student or scholar. Examples of offenses of this type include: giving other students false or misleading information; making library material unavailable to others by stealing or defacing books or journals, or by deliberately misplacing or destroying reserve materials; or altering computer files that belong to another.

## **Forgery, Alteration or Misuse of Campus Documents, Records, or Identification or Knowingly Furnishing False or Incomplete Information to a Campus:**

It is a violation of Academic Integrity to alter documents affecting academic records. It is also a violation to forge a signature of authorization or to falsify information on an official academic document, election form, grade report, letter of permission, petition, or any document designed to meet or exempt a student from an established College academic regulation.

## **Sanctions:**

All violations of Academic Integrity are subject to an appropriate penalty. Violations at Solano Community College are classified into three levels according to the severity of the infraction and the discretion of the instructor and/or Vice President of Academic Affairs. For each level of violation, a corresponding set of

sanctions is recommended. These sanctions are intended as general guidelines as culpability may be assessed differentially for those with more and less experience as members of the academic community. Examples are cited below for each level of violation. These examples are illustrations and are not meant to be considered all-inclusive.

Any violation of Academic Integrity which occurs within the classroom or the context of a particular class may incur Level One or Level Two sanctions at the discretion of the instructor. The instructor may also choose to refer the student to the Office of the Vice President of Academic Affairs for possible further action at the discretion of the Vice President, Academic Affairs, including Level Three sanctions.

To refer students to the Office of the Vice President of Academic Affairs, faculty may contact the Office of the Vice President of Academic Affairs directly or use the Solano Community College Academic Dishonesty Report Form.

For a complete copy of the Academic Integrity policy, please refer to the SCC online catalog.

## **Acknowledgements:**

The Academic Integrity description was updated in Spring 2005 by a committee composed of SCC faculty appointed by the Academic Senate. Comments and suggestions were made by deans, faculty, students, and staff in the various academic units. The previous SCC academic integrity description and the policies/ descriptions of other major public institutions were consulted, especially Rutgers University, New

Brunswick. Solano Community College is indebted to all those who have contributed their ideas.

## **Illegal Distribution of Copyrighted Materials**

Solano Community College students are prohibited from using the Solano Community College District network to illegally download or share music, video and all other copyrighted intellectual property. ## SOLANO COLLEGE SCHOLARSHIP FOUNDATION

The Solano College Scholarship Foundation is a non-profit corporation that awards scholarships to students at Solano Community College on the basis of their academic achievement and demonstrated potential for excellence. The Foundation is administered by a Board of Directors with representatives from the communities of Solano County.

Beginning with the three scholarships that were presented in 1974, the scholarship program has grown through the years.

# Programs & Services

In the fall of 2010 over 80 awards were presented and over \$25,000 was distributed to Solano students. The goal of the Scholarship Foundation is to promote academic excellence among Solano students by recognizing and rewarding outstanding students. Almost all of the scholarships require students to have completed 24 graded units of coursework at Solano with a cumulative GPA of at least 3.30.

The Scholarship Foundation administers two scholarship programs, the General Scholastic Achievement Program and the Memorial and Special Endowments Program. Each of these scholarship has been established to honor and commemorate specific individuals or purposes. Most have designated majors and/or other specific qualifying requirements that determine eligibility for consideration.
