KINESIOLOGY

Students should be aware that there are inherent risks involved in any Kinesiology class. Students must notify the instructor of any medical condition they have, or have had in the past, that may impact their ability to participate in the class. Discipline Note: Intercollegiate athletics is for those students who wish to compete against other students at an advanced level of sport from other community colleges. To be eligible, student-athletes must be continuously enrolled in a minimum of 12 units during the semester of competition. For second year of competition, the student-athlete must have completed 24 units between seasons of competition with a minimum of a 2.0 grade point average.

ONLINE CLASSES

Solano Community College offers two types of Internet classes for credit: online and hybrid classes. Online classes are taught over the Internet and hybrid classes are taught partly over the Internet and partly in the classroom. These classes have regular assignment schedules and reading material and the same learning requirements as traditional classes. Participation in online sections and hybrid sections requires that the students have a computer with Internet access and a web browser. The individual classes will also have additional requirements such as a textbook and possibly a specific software program to be used. You might also have to come to campus for an in-person exam.

Online: These classes utilize the Internet to create an educational experience that can be completely independent of time and place. Students still purchase textbook(s) and take tests, but they do the majority of the classwork at a computer connected to the Internet. They work according to their own schedule, at home, in the office, or on open access computers on campus in the library. Course materials, the syllabus, assignments, tests, and links to other Web resources are contained on the course site. Students communicate with their instructor and each other by sending and receiving email and by participating in “threaded discussions.” These are discussions that continue over time where students drop in to read the comments and to add their own. While online classes may not be for everyone, they are well-suited to students who are self-motivated, who have access to a computer, who may have busy schedules, and who may not be able to travel to campus for classes with specific meeting times.

Hybrid: These classes use a combination of the face-to-face and online formats. Some activities will be conducted in a group (traditional class) format and some activities are conducted (online). These classes offer the best of both worlds - flexibility with the online portion and the sense of being in a group with the traditional class meeting.

In order to be successful in online and hybrid courses, students need to be self-directed, motivated, and able to independently complete and electronically submit assignments on schedule. Students will also need basic internet skills and consistent access to a computer with internet capability.
