## Program Description

OCED 090 and 091 are variable-unit work experience courses available to all occupational education certificate and degree programs students. These courses are designed to combine academic studies with practical, on the job experience, enabling students to apply theories learned in the classrooms to real work situations while earning college credits. Students wishing to continue OCED 090 and 091 over multiple semesters must contact the Work Experience Coordinator for enrollment assistance.

Through an agreement formulated at the beginning of the semester, each student establishes specific "Measurable Learning Objectives" to be accomplished by the end of the grading period. This cooperative agreement may be in the private sector or in public agencies and may be paid or volunteer.
