AGENDA ITEM 9. (a)  
MEETING DATE November 18, 2009

SOLANO COMMUNITY COLLEGE DISTRICT  
GOVERNING BOARD AGENDA ITEM

TO:  
Members of the Governing Board

SUBJECT:  
CITY OF FAIRFIELD RIGHT OF ENTRY AGREEMENT

REQUESTED ACTION:  
APPROVAL

SUMMARY:

Board approval is requested for staff to execute the attached Right of Entry Agreement. For over a year, the city of Fairfield has been planning and organizing to move forward with their East-West Water Transmission Pipeline, Phase II Project. This will eventually require an easement approximately 20’ wide running virtually along the entire southerly edge of the Fairfield campus property line and on and contiguous to the East-West parking lot roadway.

An appraisal is being accomplished to establish an independent value for the proposed easement property, but in the meantime the city has asked to be able to move ahead with the preliminary archaeological testing of the site, involving the sampling and examination of soil from approximately 20 locations within the site; thus, the need for a Right of Entry Agreement between the city of Fairfield and the District. This document has been negotiated and finalized by the attorneys of both parties. Attached is a copy of the agreement for Board review.

Staff will be at the meeting to answer any questions from the Governing Board.

TEMPORARY REVOCABLE LICENSE RIGHT OF ENTRY AGREEMENT

This Temporary Revocable License Limited Right of Entry Agreement (the “Agreement”) is made as of ______________, 2009 between the CITY OF FAIRFIELD, a municipal corporation, whose address is 1000 Webster Street, Fairfield, CA hereafter referred to as “Licensor” and the SOLANO COMMUNITY COLLEGE DISTRICT, a community college district, whose address is 4000 Suisun Valley Road, Fairfield, CA 94534, hereafter referred to as “Licensee”. The District or City is sometimes referred to herein below as “Party” and jointly referred to as “Parties”.

REQUITALS

A. Licensor is the owner in fee simple of certain real property generally described as 4000 Suisun Valley Road, County of Solano, State of California, commonly known as Assessor’s Parcel No. 027-242-120 (“District’s Property”), which is a portion of the Solano Community College property situated in Fairfield, California (hereafter referred to as the “College Campus”), all as more particularly described and depicted in Exhibit A, attached to this Agreement and hereby incorporated by reference, and depicted also on the plot plan attached hereto as Exhibit A-1 and hereby incorporated by reference.

B. The Parties are currently negotiating to determine whether Licensor may obtain an easement to install approximately one thousand eight hundred and fifty (1850’) linear feet of a new thirty inch (30”) diameter waterline within District’s Property (the “Waterline”) in accordance with approved plans and specifications, hereinafter referred to as the “Project.”

C. Licensee desires to obtain a limited access temporary revocable license over only the District Property specifically described in Exhibit “A” and depicted on Exhibit A-1 from the Licensor for temporary construction purposes to perform preliminary testing relating to archaeological sampling on the District’s Property to determine if the proposed easement area may be suitable for its purposes.

NOW THEREFORE, in consideration of the mutual premises contained herein, the foregoing recitals and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. LICENSE:

1.1. Grant of License: Licensor grants to Licensee a temporary license (hereafter referred to as "the License") for temporary construction access on the College Property to perform construction for:

a. Limited soil sampling and archaeological sampling within the District’s Property to determine soil type and if any archeological findings exist within proposed easement area.

The License is a personal revocable privilege only for the purpose of the construction and testing listed above. Licensee may not use the District’s Property for any other purpose or business without obtaining Licensor's prior written consent. The License given to
Licensee is non-exclusive. Licensor retains the right to use the District Property for any purpose, including the rights to give other licenses in the District Property to third parties.

1.2 Assignment of License: This License is personal to the Licensee and shall not be assigned. Any attempt to assign the License shall automatically terminate it. No legal title or leasehold interest in the Property is created or vested in Licensee by the grant of this License.

1.3 Revocation of License: The License is a revocable license to the Licensee and may be revoked at any time by Licensor at will, without cause. In the event Licensor exercises its right to revoke the License, Licensor shall give forty-eight (48) hours verbal or written notice to Licensee of its intention to revoke the License. Notwithstanding the above, the License shall automatically terminate and be revoked three months after the date of this Agreement or when the construction and testing listed above is complete, whichever occurs first. Licensor and Licensee may extend this License for an additional three month period only by mutual written agreement properly executed by both parties. In no event may this License be extended for periods of time which are more than three months in duration. If any extended License is not subsequently extended for an additional three month period by mutual written agreement then the License shall automatically terminate and be revoked three months after the date of the written extension.

1.4 Termination of Occupancy: After receipt of notice of termination of the License from Licensor or at the time when the License automatically terminates listed above in Section 1.3, whichever occurs first, Licensee shall remove all of Licensee's personal property, including, but not limited to, goods, debris, barriers, construction supplies or materials, equipment, or other items related to construction and testing from the District's Property and shall surrender possession of the District Property to Licensor in good order and repair to the satisfaction of Licensor. Licensee warrants and agrees to replace or repair any damaged property located within the District Property, including, but not limited to, damages to fencing, irrigation, landscaping, underground utility lines or services, portland cement concrete, sidewalks, walkways, curbs and gutters, asphaltic concrete, or other roadway surfaces, and all other damaged or faulty items on the District Property (hereafter referred to as the "Warranty work"). All repairs or replaced items shall be installed in a workmanlike quality according to industry standards or to the condition of the damaged item prior to the damage, whichever quality is greater, and shall fully comply with all applicable laws and building codes. Licensee hereby warrants that the workmanship and materials to be installed for all repaired or replaced property shall be without fault or defect for a period of three (3) years after acceptance of the repaired or replaced work by Licensor. Licensee agrees that it will, upon notice from Licensor or its assigns, immediately and without delay, at its own cost and expense, repair or replace any defects due to faulty work or materials arising during said warranty period. This warranty is expressly made for the benefit of Licensor, and its assigns, and shall be enforceable by any one or more of them. Nothing contained herein shall be deemed to limit Licensee’s liability or responsibility for faulty materials or workmanship, or for latent or patent defects in the work, or to limit any statutory or implied warranties, or any
other rights or remedies by Licensor. The requirements of this paragraph shall survive the completion of the work or the termination of this Agreement or the License.

2. **INDEMNITY/INSURANCE/ SAFETY RULES:**

2.1 **Indemnity:** To the fullest extent permitted by law, Licensee agrees to defend (with counsel acceptable to Licensor), indemnify and hold the Licensor harmless from and against all loss, damage, liability, expense, cost, claim or lien arising out of injury to, whether bodily injury and/or personal injury, or death of persons, including, but not limited to, injury or death of any employee or invitee of Licensor, Licensee or Licensee’s subcontractors, agents, or independent contractors, or loss of use or damage to property, arising out of, or relating in any way, directly or indirectly, to (i) the License or (ii) the use of the District Property by Licensee or Licensee’s subcontractors, agents, employees, or independent contractors, or (iii) obligations under this Agreement or, (iv) licensee’s breach or default of its obligations hereunder, regardless of the active or passive negligence of Licensor, except to the extent that such indemnity is void or unenforceable at law and except for any loss, damage, liability, expense, cost, or claim where such liability is the result of the sole negligence or willful misconduct of the Licensor. Licensee represents and warrants to Licensor that it shall include in all agreements with its subcontractors, agents, employees, and independent contractors who enter the District’s Property under this license, clauses similar to this paragraph wherein the Licensee’s subcontractors, agents, employees, and independent contractors agree to indemnify Licensor against all loss, damage, liability, expense, costs relating to the use, access, or work done relating to this License or the District’s Property.

Licensee’s duty to defend Licensor is entirely separate from, independent of Licensee’s duty to indemnify Licensor, including without limitation, the defense of Licensor against claims for which Licensor may be strictly liable, and applies whether the issue of Licensee’s negligence, breach of contract or other fault or obligation has been determined. It is the intention of the Licensee and Licensor that Licensor shall be entitled to obtain summary adjudication of Licensee’s duty to defend Licensor at any stage of any claim or suit under this Section.

The Licensee and Licensee’s subcontractors, agents, employees, and independent contractors shall not enter the District Property area under this Agreement until the requirements of this Section have been complied with and the Licensee has supplied a written additional insured certificate and endorsement to the Licensor covering the Licensee and all Licensee’s subcontractors, agents, invitees and independent contractors.

SUBJECT: ISSUE REQUEST FOR PROPOSAL (RFP) FOR THE DISTRICT FOOD SERVICE CONTRACT

REQUESTED ACTION: APPROVAL

SUMMARY:

Board approval is requested for the District to issue a Request for Proposal (RFP) for the food service contract. The current contract with Fresh & Natural Food Service Group expires June 30, 2010. With Board approval, the District signed a contract in 2005 for a three-year term and granted two contract extensions of one year each.

The District plans to advertise and solicit RFPs from vendors to provide cafeteria and catering services for a three-year term from July 1, 2010 to June 30, 2013. The District expects potential bidders to present a comprehensive program for the management of its food service operations. The bidders will be evaluated on several levels relative to menu quality and variety; company qualifications and experience; its financial proposal; and customer satisfaction from other clients.

The District’s Food Services Committee is involved in the process and is assisting the Business Services Office with coordinating the process. The RFP is provided to the Board under separate cover. A copy may be obtained at the Office of the Vice President of Administrative & Business Services.

A proposal to reallocate resources where it may do the greatest good for students and the future of the college: An investment in our future.
Executive Reorganization Proposal
Solano Community College

Introduction

Solano Community College has operated with a four-vice presidential model for several years: Vice President for Academic Affairs, Vice President for Administrative and Business Services, Vice President of Technology and Learning Resources, and Vice President for Student Services. Solano Community College has seen considerable change in the presidential office over the past four years. In addition, the college has lacked progress in its career and technical education programs, has not been able to mount any substantial or consistent fundraising campaign and lacked coordination with its community. The college attempted to implement the Banner software system to operate its student and administrative functions, but was not able to successfully roll it out and had to re-start. There remain major challenges that effect institutional effectiveness in major areas of the college.

The college, while fundamentally sound in its instructional core, lacks institutional support to propel it to greatness. While the services provided for student support are sound, the sum of the components does not necessarily equal the expected whole. The college depends heavily on state funding. This support is shaky when it comes to extending the college beyond the regularly funded areas. This is manifested in the lack of resources for professional development for both faculty and staff. At the level of student recruitment, the college lacks a comprehensive approach to both enrollment management and focused student recruitment. To improve the college’s infrastructure, choices need to be made either to ignore some needs or to make short-term sacrifices for greater gains. As Theodore Roosevelt said, “In any moment of decision the best thing you can do is the right thing, the next best thing is the wrong thing, and the worst thing you can do is nothing.” After much thinking and consultation, the choice I made as superintendent/president is to submit a proposal to move the college forward by making sacrifices at this time for potential gains later. This choice took into account the concerns expressed at the forums on the reorganization, written communications and private conversations with college leaders.

In sum, the reorganization is a reinvestment into the infrastructure of the college to serve students better and support the work of the faculty. This is one of many strategic steps our administration needs to make to support teaching and learning and the success of our students.

Commitment to Employees
As an educator who needs to make difficult choices, I combine the need to make decisions with the humane aspect of the profession. That is why I decided to let the current members of the executive team know in June that almost thirteen months later there would be a new administrative structure at the college.

Data and Information Considered -
• A review of institutions in the state of California showed that the majority of institutions had three vice presidents (colleges’ Web sites).
• Whether the administration at the executive level was top-heavy in light of budget issues and other priorities (SCC’s organizational structure).
• Potential savings to attend to other issues (salary savings initial calculations).
• Peer institutions attract greater government grants and contracts than SCC does (IPEDS Data Report 2009).
• Peer institutions provide more scholarships than SCC does (IPEDS Data Feedback 2009).

Context -
• The data do not indicate that SCC has more administrators than peer institutions. However, the number of VPs is slightly higher than what we observed.
• The budget and the current staffing at different levels do not provide for more areas to make cuts to attend to other issues. For example, the college has had a good proposal for a Basic Skills initiative, but it has not been funded for lack of resources. Leadership for Basic Skills is a moral obligation for an open-admission institution. It supports learning.
• Based on information we see, the college has not attracted grants as much as it has the potential to do. A study conducted in 2006 committed to an institutional Advancement model that has not materialized. This deficiency deprives students of support that could make them more successful. The potential to attract grants from the National Science Foundation (NSF) or the National Institute of Health (NIH) leads to greater support for learning.
• Based on data, the college has not supported student scholarships at par with peer institutions. Student scholarships could provide greater support for students for access and success.

The information described above supports the proposed reorganization described below:

• Establish a two-vice-president model by reducing the number of vice presidents from four to two.
• Establish the position of Chief Information Systems Officer (CISO) in place of the Vice President of Technology and Learning Resources position. Position to be filled through a search in the future.
• Establish a position of Vice President for Academic and Student Affairs (VPASA) by combining the positions of Vice President for Academic Affairs and Vice President for Student Services and by restructuring the new position so it may have fewer combined responsibilities and nearly equal support as the two combined VP positions. Position to be filled through a search process.
• Establish an Institutional Advancement model by eliminating the position of Director of Marketing and Public Information. This position will work to secure greater resources for the institution to support, among others: faculty and staff development activities, resources to support student success, and resources to provide financial support for students and the institution. The holder of that position will be “Executive Director for Institutional Advancement.” Position to be filled through a search process.
• Establishment of a Dean of Academic Success and Learning Resources. This position will oversee the Library, Teaching and Learning Center, leadership for Basic Skills and the academic function of Distance Education. This position reports to the VPASA. Position to be filled through a search process.
• New title for the Vice President for Administrative and Business Services to Vice President for Finance and Administration (VPFA). Position in recruitment stage as date of current draft.
• Establish a Coordinator of Marketing and Student Recruitment to be shared between Institutional Advancement and Student Services. This administrative position will be responsible for representing the college in high schools and in the community. This position reports to the Executive Director of
Institutional Advancement and the Dean of Enrollment Management. The savings from the reorganization will not be enough to support this new position; therefore, it will be created through the reallocation of existing resources. **Position may be filled through promotion, internal or external search.**

Response to Concerns -

- **Load for Vice President of Academic and Student Affairs (VPASA):**  
  The college community expressed concerns for the enormity of the responsibilities for the VPASA. We promised to address the issue. While confident that a skilled professional can fulfill the role, we offer the following as means to make the position more workable:
  - Restructure components of the responsibilities of the VPASA
    - Center Directors will report to the Superintendent/President instead of the current reporting line to the EVPASA and will work collaboratively with the Academic and Student Services Deans to serve the centers. Faculty expressed support for Center Directors to work collaboratively with their assigned faculty to develop and offer the proper learning opportunities for students at the centers. This change will greatly benefit students.
    - Leave the current direct support positions supporting the vice presidents, except for one classified staff to be assigned to the Executive Director of Institutional Advancement as the position was previously designed.
    - Convert the position of Dean of Student Development to Dean of Enrollment Management (having responsibility for the office of Admissions and Records as well as the office of Financial Aid), thus eliminating the need for the offices of Admissions and Records and Financial Aid to report directly to the VPASA.
    - Empower the VPASA to restructure Academic and Student Affairs in ways to make both the units successful.
  
These changes diminish the VP’s span of control and provide the added capacity for success in the position.
Accreditation: Colleagues expressed concerns with the effect of the reorganization on our accreditation status. We would like to offer the following in response:

- Institutions of higher education are held accountable to fulfill their mission. Consequently, the ACCJC's concern will be whether the college has the administrative capacity to meet its mission, which includes instruction and serving students. The reorganization provides such capacity.
- ACCJC could be concerned about appropriate conversations taking place at the college to give a voice to employees in regard to the proposed reorganization. This process was quite consultative and the discussions led to some outcomes that modified the original proposal.
- ACCJC might be concerned about whether the Governing Board has reviewed and approved the reorganization. We intend to seek board approval for the proposal.
- ACCJC may be concerned about the pace of the change; too fast or too slow. Too fast--there might not have been time for discussions; too slow--may cause extended delays in filling positions. Both have been addressed inasmuch as ample time was provided for input and a recruitment process will be put in place with the expected timeline of July 1 to fill positions.

Potential for small units like the library to be lost in the big picture: Some colleagues expressed concern about small units being neglected.

- Some smaller units are slated to be combined with other units to form a logical block of support for students' instructional enrichment and faculty support.
- Fear for Library to lose its connection with technology: Since Academic Technologies is still in the same unit; the library needs not lose its focus on technology but will gain the partnership with instruction without being led by one division.

Current staff

- Once the CBO is hired, that person will become the Vice President for Finance and Administration on July 1, 2010, or earlier if conditions warrant.
- The Executive Vice President for Academic and Student Affairs position will be filled through a national search to commence upon board approval of the reorganization.

Voices at Cabinet level: Some colleagues are concerned that the proper voices may not be heard at the Cabinet level. We are taking the following measures to allay some of the anxiety.

- Based on feedback provided, the Academic Senate President will be invited to sit on the Superintendent/President's Cabinet. While this is an unusual arrangement, it provides for transparency and ensuring that the VPASA is supported in carrying out her/his duties.
- The Chief Information Officer will have a seat on the S/P Cabinet.
- The Human Resources Director will be included on the S/P Cabinet.
- The Executive Director of Institutional Advancement will be included on the S/P Cabinet.
- A dean of Student Services may also join the cabinet.
- A division dean may also join the cabinet

It is expected that the absence of the two vice presidents will not diminish the voices of the institution to the Cabinet.

Measures of success: Whether it is recruitment for teaching or in sports or in personnel or in reorganization, the successes of our choices and decisions are not known until they sustain the test of time. Nevertheless, the following are presented as expected results:

- Better-led Basic Skills program--an administrator in charge.
- Establishment of greater opportunities for faculty and staff development.
- Greater emphasis on IT issues and decreased problems with coordination or implementation: Banner.
- Greater focus on student recruitment.
• Improved attraction of outside resources for greater institutional support and students' scholarships.
• Improved Student Services functions: in particular, student recruitment.

Collaborative Process -
In my July 2009 letter to the college community, I laid out a proposal for reorganizing the college by reducing the number of vice presidents and reinvesting the savings into other priorities. I promised to not make any final decision until I had an opportunity to discuss the proposal with constituents. I held conversations with a variety of individuals: faculty, staff, students, Academic Senate, and faculty unions. I also held open forums at all sites: Fairfield, Vacaville and Vallejo.

The proposal was mostly accepted with two important questions:
1) Will this affect our accreditation negatively?
2) Why do I have to lose my vice president? Aren't they part of our family as well?
While I have given my educated analysis on the former, I have in part addressed the latter. The vice presidents or members of the executive team are eligible to apply for the positions for which they meet minimum qualifications. In recognizing their years of service and contributions to the college, we provided over a year's worth of notice for the administrators to evaluate their options for other employment. The maximum required notice is three and a half months in some cases and forty-five days in others.

Several points were raised in regard to the reorganization and communicated to us by the Academic Senate President. I reproduce below these concerns and make comments in red to show the extent to which we listened to legitimate concerns:

1) Combining the VPAA and VPSS would:
a. Represent too much work for one person. The revised reorganization provides relief to make the job more doable. See corresponding section above as a direct answer to the concern.
b. Require the creation of mid-level management and thus not generate savings. The savings to be generated are to be re-invested at a level lower than the vice presidents and closer to serving students.
c. Centralizing these functions eliminates synergy and “more eyes” on the problem. One could argue that centralizing these functions could bring greater synergy and cooperation between Academic Affairs and Student Services. One could argue that “more eyes” on a problem does not always mean better solutions. This reorganization is simply redistributing the college’s resources for greater institutional effectiveness.

2) By putting technology under the VP BAS makes it hard to find someone with that breadth of skills and de-emphasizes academic computing. In response to this concern, there will be a professional solely in charge of information technology. We would like to see academic technologies handled by academicians. Faculty members determine what is needed and IT executes. The Dean for the Academic Success Center will provide leadership for Distance Education.

3) Accreditation:
a. It is difficult to ask VPs to do their best when they have received a March 15 notice. The VPs remain employed and supported. Any further action depends on the outcomes of the reorganization.
b. What about the stability we were praised for in the last report? By not issuing March 15 letters, the reorganization has given ample time for stability. It would have been different if everyone
had been dismissed July 1, 2009. This is a measured approach and ensures stability in the midst of change. We will be staffed by the time the reorganization is implemented.

c. This is disorder, not stability. By the time the reorganization is in place, searches will be concluded; stability will have been maintained.

4) We need to see the actual financial analysis. Some faculty in mathematics and accounting have provided the cost analysis for us based on the staffing stated above. The choice to have made Academic Success Dean to support Basic Skills has not allowed us to add another staff.

5) Instead of firing VPs, ask them to take a pay cut. This reorganization is simply redistributing the college's resources for greater institutional effectiveness. This is to build greater capacity for long-term benefits to the institution.

6) What are the criteria for evaluating success? The evaluation is set above and is based on the assumptions of what we would do with the savings. How will we know if the reorganization worked? This is also answered above, but we will know if it works if the college upholds the standards of accreditation and accomplishes some of the goals shared through the reorganization presentations. If we can answer yes to some or all of these questions, we can conclude that the reorganization had an effect. Do we have greater support for Basic Skills? Do we have a greater emphasis on student recruitment? Are we able to attract more grants and contracts to serve students better? Are we able to award more scholarships to students? These are good accountability measures.

7) Where is the data to support this decision? See the data section above and the explanation that follows.

8) There is a concern about a concentration of decision-making in the hands of just a few administrators. This provides for more people at the college to be involved in the decision-making process and the administrators to use open communication and sharing of information.

9) Can you discuss more fully how this move represents a "sacrifice for the office of the President?" The President has fewer people to whom to delegate tasks. He will have to do more himself or with the smaller staff he has.

10) How will funds be diverted to serve Basic Skills? They will be assigned to Basic Skills. A position? Programs? Budget? A position to help lead the Basic Skills initiatives.

11) How will you fill new positions like the Recruiter? They will be filled using our board policies.

12) When discussing saving two jobs on campus, we are forgetting that we are letting three administrators go...aren't they part of the SCC family? The administrators are certainly an integral part of the family. This reorganization is simply redistributing the college's resources for greater institutional effectiveness.

13) Can you define what the "executive" in executive Director of Institutional Advancement means? This is a common title for this type of position. It indicates that this position has a higher level of responsibility and accountability than a director.

14) Has there been a Staffing Master Plan to justify this plan? No! The basic consideration or philosophy is to place more resources closer to the students and closer to the front line.

15) Is there another community college of our size or ARCC group cohort that has this administrative structure? The community colleges of our size have a variety of administrative structures. There is, however, at least one identified college in our IPEDS cohort with a similar model.

16) Can you identify the ways in which this reorganization best serves quality teaching and student learning? a) Having Student Services and Academic Affairs in the same unit may generate cooperation that would make students' experiences exceptional. b) By investing more in Basic Skills, there will be a greater effect on students. c) By implementing a comprehensive student recruitment program, we will better support student access. d) By establishing an institutional advancement
model, we will be able to attract more grants that can serve students and more scholarships to help students and support faculty development.

17) Can you imagine yourself not moving forward with the reorganization? No, I cannot! What would be the elements of your decision making that would lead you to that position? While there are some colleagues who question the need for the reorganization, there has been very good support for the reorganization as well. After all, this is an effort to ensure greater institutional effectiveness and to move the organization in a positive direction.

Conclusion:

In light of the recommendations for dialog at the college, this reorganization exemplifies meaningful dialog and interaction. This proposal started as the Superintendent thinking in July. The college community has spoken and we have listened and made modifications. Two areas presented concerns: the load of the VP for Academic and Student Affairs and the effect of the restructuring on accreditation. These concerns were addressed by reducing the workload of the VP and by making the difference between a hasty reorganization and a thoughtful and methodical one. The ultimate question and consideration is whether this reorganization would support learners and learning better. By providing resources for Basic Skills, Center for Teaching and Learning, Library and Distance Education under the leadership of Instruction, we have enhanced our potential for success.

This proposal will be formally presented to the Faculty Senate, Shared Governance for information and to the Governing Board for action. We are scheduling two open forums to answer questions.
