Contract Terms

Partnership with Hanover Research runs 12 months from the start date below. Partnership equates to the following client services delivered by Hanover Research staff:

- **Grants Strategy Development**  
  Hanover will survey administrators, program directors, and faculty to identify organizational strengths in the context of the grants climate and current funding trends. Hanover will use information gathered during the onboarding process to produce a memorandum proposing a grants strategy for the organization. Hanover staff will also arrange a trip to Solano Community College to provide coaching, grantmanship training, present research findings, and discuss the funding strategy with your team.

- **Research-Based Grants Prospecting**  
  Hanover will develop customized grant-prospecting reports for areas of particular need. Reports may include government and/or private opportunities, and will propose strategies for maximizing all available funding streams. Hanover will conduct feasibility assessments of open grant opportunities to ensure clients' projects or initiatives are eligible and competitive.

- **Program Development Consultation**  
  Hanover will provide guidance on the development of both new and existing programs based on years of relevant industry expertise. Hanover will identify model programs, analyze their strengths and weaknesses, and suggest refinements which reflect the unique characteristics of the client organization. Hanover will incorporate secondary research to strengthen proposed methods and activities, and mine program data to demonstrate effectiveness.

- **Grant Proposal Development**  
  Hanover’s Grant Proposal Development services include grant application development, writing, review, and rewriting. Hanover will also fully construct Letters of Inquiry for private grantmakers. Hanover can serve as the project manager for your internal team of subject-matter experts as they generate a grant proposal, and contribute to the production of pre-proposal data analysis and other content such as best practice and literature reviews.

- **Grant Alerts**  
  Hanover will provide customized identification and prioritization of significant funding opportunities as needed at regular intervals coinciding with funding cycles and predetermined areas of focus.
Research services provided within partnership include:

- Primary Research — survey design, administration and analysis; interviews with industry/issue experts
- Secondary Research — industry news, trend forecasting, literature reviews, competitor profiles, market assessments
- Quantitative and Qualitative Data Analysis — data mining, coding and segmentation, predictive analysis, regression modeling, program evaluation
- Benchmarking — peer group development, organizational structure, staffing, compensation, operating metrics
- Access to Hanover’s Membership Library containing over 1,600 resources on higher education best practices, benchmarks, market data, etc.

Two Points of Contact

Each Hanover partner is served by a Relationship Director and a Content Director to ensure the quality of the partnership across the course of the contract term. The Content Director is responsible for allocating each project request to the appropriate Hanover research analysts and managing its progress from start to finish. The Relationship Director is responsible for contract management and for ensuring member satisfaction, including usage of our added resources such as Hanover’s Education Library and topical webinars. The Relationship Director also liaises with other members in order to provide peer networking opportunities.

Quarterly Consultations

Hanover’s content experts check in on a quarterly basis to offer strategic guidance and gather feedback to ensure each member is maximizing its use of our research capabilities and resources.

Participation

All research and grants services are available to Solano Community College administrators in unlimited amount within the confines of one project at a time; the signatory of this agreement serves as our primary contact. We ask that partners not distribute the resources housed in Hanover’s research library to those outside of their organization.

Solano Community College has the ability to commission additional grants and research projects that would be conducted simultaneously with projects in their membership queue and will be priced upon request.

Solano Community College has authority in deciding which projects to pursue. Specific grant proposals are considered proprietary and thus will not be shared by Hanover with a third party (other than the funding agency or organization) without the College’s expressed consent.

Contract Amount

$35,000 per year

*This partnership is discounted from the annual subscription of $40,000 and is available to Solano Community College if this signed agreement is returned on or by April 30, 2013.

Invoicing

April 30, 2013 – $17,500

July 1, 2013 – $17,500
Solano Community College may reduce this amount by 2%, if payment is wired or postmarked within 10 working days of invoice submission. If the undersigned does not select that option, then payment is due within 30 days of the invoice date. Failure to pay promptly will result in project postponement.

The Contract Amount covers all labor and travel costs across each annual term. Any additional expenses related to a particular research request (third-party call centers, email list providers, etc.) will be detailed and approved by Solano Community College in full prior to the start of the project.

PARTNER PLEDGE FOR THE BAY AREA ROADMAP TO CUT POVERTY

1 IN 5 BAY AREA FAMILIES CANNOT MAKE ENDS MEET. 1 IN 5 IS SIMPLY NOT ACCEPTABLE.

(organization name) joins hundreds of other Bay Area organizations coming together to cut poverty in half by 2020.

AUDACIOUS? YES. DOABLE? ABSOLUTELY — BY WORKING TOGETHER.

As a leader in fighting poverty, we know that no one program or expert can do the job alone. Only by working together can we attack the problem at its source and at scale. Only by working together can we make a significant, lasting difference.

As a partner in the Roadmap to Cut Bay Area Poverty in Half by 2020, we are excited to connect our efforts with the work of hundreds of partners and thousands of individuals to transform the Bay Area. The Roadmap Partnership will help the people in need that we care about and help us achieve more for them. The Partnership will give us more tools to shine a light on the issue, attract support, measure progress and communicate results.

AS A ROADMAP PARTNER, WE AGREE TO:

1. BE NAMED AND ACKNOWLEDGED PUBLICLY AS A ROADMAP PARTNER and, therefore, a leader in the movement to cut Bay Area poverty in half by 2020. We will be recognized as part of the outstanding team of organizations coming together across sectors to achieve this bold and important goal. Our organization name and logo can be included in printed, online and media materials related to the Roadmap, and we will do our best to participate in major media events.

2. PARTICIPATE IN DECISION MAKING ABOUT THE ROADMAP. My organization will make every effort to have senior staff participate in key decisions about the Partnership, including the Roadmap’s content, metrics of success, and the Partnership’s structure. We understand our input is welcome, and our ideas and expertise are needed to ensure we reach our goal.

3. HELP DEFINE SUCCESS METRICS AND EXPLORE HOW WE CAN SHARE DATA WITH ONE ANOTHER. We pledge to help create the process for partners to share and aggregate data about their work on poverty. This pledge does not obligate us to change any of our current data systems, nor to collect or report any data. Rather, we pledge to help create an effective approach to evaluating the Roadmap, and to strongly consider participating in the measurement process when it begins.

4. PARTICIPATE IN AT LEAST ONE ROADMAP STRATEGY. This can be a current area of our work, a natural extension, or something new to us that allows our organization to innovate and learn.

| 64R1    | Per DSA approved Plans and Specifications, the General Contractor (GC) correctly installed new plumbing piping onto an existing Piping Trapeze (hangers). Therefore, a trip unit was furnished and installed to the main electrical panel in the building and the substation's breaker was replaced. During construction it was determined that the newly installed Canopy #1 structural steel beams interfered with the installation of the four kilns' exhaust system shown on the structural drawings. The required clearance to connect the (large) hood attachments is not possible and will not allow installation as shown on the contract documents. Therefore, kilns were realigned underneath the canopy and the manifold exhaust system was changed to four individual exhaust hoods and flue stacks. The changes included the removal of and replacement steel I-beams

The original contract documents omitted the size of the area drains and the piping on the north exterior patio. Therefore, the contractor furnished and installed area drains and piping per civil engineer's revised sketches.

$ 2,104.01

The District furnished a larger projector screen than shown on the plans, therefore, the projector, electrical conduits and junction box were relocated 12' further back to meet the image to distance ratio.

$ 535.55

The contract documents omitted accessibility (ADA) buttons into the Vestibule and Gallery. The change will require the installation of ADA buttons in Vestibule, Gallery, and the Exterior (west). The General Contractor will furnish, install and program two doors and three wireless ADA actuator monument buttons.

$ 8,526.29

The contract documents incorrectly identified an existing ceiling and wall supports in the wet glazing room and basic drawing lab. The plans showed re-using the existing supports for the wall and ceiling to install gypsum (drywall) in these areas. There was not any existing ceiling supports in the Wet Glaze room or supports from the bottom of the trusses to the ceiling deck in the Basic Drawing lab. The contractor furnished and installed steel studs, compression struts, and gypsum.

$ 6,144.11

The contract documents incorrectly identified the ceiling type in the main corridor on the finishes schedule as Acoustical Tile (ACT). The finish schedule called for the walls to match the ceiling's paint finish. ACT does not require a paint finish. However, the main corridor is a gypsum (drywall) ceiling and paint was required to finish the ceiling surface.

$ 734.67

Per End-User request, additional upper wood cabinets were furnished and installed in the Administration Suite. The additional cabinetry increased the functionality and flexibility of storing and securing valuable items.

$ 1,048.91

The contract documents incorrectly identified the (Gallery) Vestibule's Display Case without glass. Therefore, the General Contractor modified and will install (4) 2' x10' tempered glass into the two Display Cases.

$ 2,518.69
The contract documents incorrectly showed the Wood Shop and the Dry Glazing rooms sharing the same dust collector systems. The Dry Glazing room activities generate small quantities of hazardous material (metals); therefore, a separate collector unit was installed in the Dry Glazing room. A three-phase, 30 Amp breaker and outlet were furnished and installed for the unit.

$ 1,584.39

Per End-User request, the walls in the Gallery were sanded to a level 4 finish and painted in lieu of installing 16" high tackable Xorel fabric. This is a savings to the District.

$ (337.15)

Per End-User request, the room numbering system was changed for the entire building. The end-user expressed concerns regarding confusion amongst the students when navigating and finding their classrooms. The electrical and data faceplates were relabeled in each room and in the IDF closet.

$ 3,140.14

The Owner furnished equipment in Bldg. 1300 was not selected when the contract was awarded. Electrical improvements (multiple outlets, disconnects, and breakers) were required and installed in accommodating the new electrical kiln and venting system.

$ 3,166.65

The Measure Q capital improvement bond was passed in November 2012. The bond value is $348M, and combined with expected state capital outlay funding and expected interest over the life of the program, the value of Measure Q will exceed Measure G by more than three times in size. A new operating structure is required to manage Measure Q effectively. Per the previously approved agreement with Roy V. Stutzman for consulting services in the areas of facilities planning, development and modernization, the Board is presented with District Staff’s recommendation of a new organizational structure for Measure Q, based on Mr. Stutzman’s report. Various options are considered, including:

1. In-house staff manages all aspects of the Bond.
2. In-house and consultant work together to manage the Bond.
3. Consultant manages day-to-day activity of Bond, with oversight by District’s Executive Bonds Manager.
4. Other options that suit the nuance and details of the program.

The Board will be asked to approve the Staff’s recommendation and to allow staff to seek qualified vendors to propose on the scope of work developed by the District. The expected RFP process will commence immediately and will finish by the end of October.
