We have our money, now what?

Begin with the end in mind.

“To begin with the end in mind means to start with a clear understanding of your destination. It means to know where you are going so that you better understand where you are now and so the steps you take are always in the right direction.”

Stephen Covey
We have our money, now what?

It’s all about learning!
Post-Bond Procedural Matters

• Certify Election Results
• Bond Oversight Committee
  – Prop 39 Requirements
  – Role and Responsibilities
  – Members required
  – Selection process
• Selling the Bonds
• Managing the Bond Program

Managing Measure Q

• Definitions
  – Program Management
    • Management of a multi-project construction program
  – Project Management
    • Management of a single project
  – Construction Management
    • Management of construction phase of a project
  – Design Team
    • Architects, engineers, landscape architects, etc.
Program Planning Phase

An 8-Step Process
1. Consolidate and analyze all program documentation developed to date
2. Prepare a summary report of findings
3. Conduct planning sessions with Solano CCD
4. Prepare a final list of projects with a summary description of each
5. Prepare a detailed Master Budget & Cash Flow Analysis
6. Prepare a detailed Master Schedule
7. Prepare a Master Program Cash Flow Analysis based on the Master Program Budget and Master Program Schedule
8. Prepare a written preliminary Program Management Plan
Program Planning Phase

1. Consolidate and analyze all program documentation developed to date
   - Strategic Plan
   - Educational Master Plan
   - Technology Master Plan
   - Facility Master Plan
   - Facility Condition Assessment Reports
   - Building and infrastructure drawings
   - Site plans & parking plans
   - Environmental Reports
Program Planning Phase

2. Prepare a summary report of findings
   – Recommendations relating to updating current documents
   – Additional studies or assessments required
   – Additional consultants required
3. Conduct planning sessions with Solano CCD

- Review a preliminary list of projects
- Establish priorities
- Discuss constraints (physical, logistical, and cash flow)
- Develop implementation schedules to include sequence and approximate durations
- Establish basic design and project delivery standards
4. Prepare a final list of projects with a summary description of each

- Phasing
- Priorities
- Descriptions
- Design Standards
- Preliminary Budgets
- Cash Flow Analysis
- Funding Analysis
  - State Funds
  - GO Bond Funds
  - Other Funding Sources
5. Prepare a detailed Master Program Budget that establishes costs for each project and related program costs

- Updated FCA estimates
- Current construction costs
- Projected escalation for duration of bond program
- Contingencies
- LEED certification
- Site infrastructure
- Soft costs
- FF&E
Program Planning Phase

6. Prepare a detailed Master Schedule

- Post-bond program definition phase
- Program preparation phase
- Site procurement and due diligence phases
- Entitlement phases, including EIR, CEQA matters
- Project Schedules including:
  - Project definition phase
  - Design Phase
  - Procurement phase
  - Construction phase
  - FF&E procurement, installation
  - Commissioning and close-out
Program Planning Phase

7. Prepare a Master Program Cash Flow Analysis based on the Master Program Budget and Master Program Schedule

- Bond sales
- State matching funds
- Other funding sources
Local Funding Sources

- General Obligation Bonds
- Assessment District Finance
- Private Sources
- Entrepreneurial Ventures
- Loans
State Assistance & Support

- Construction and remodeling of new buildings and centers
- Maintenance and repair of existing buildings and campus infrastructure
- Removal of hazardous substances
- Equipping of the colleges to meet divergent Statewide enrollment needs

Current P3 Legislation

- CA Code Section 5956
  - Single entity to “finance, plan, design, build”
  - Fee-producing
  - Lease-leaseback arrangement
8. Prepare a written preliminary Program Management Plan

- Project Descriptions
- Key Project Success Factors
- Project Priorities
  - Quick start projects
  - First series bond projects
  - State funded projects
- Master Program Budget
- Master Program Schedule
- Facilities Standards Manual
- Design Guidelines Manual

- Alternative Delivery Options and Policy
  - Design-Build
  - Lease-Leaseback
  - CM Multi-Prime
  - Public Private Partnerships
- Program Controls Recommendations
  - Policies & Procedures Manual
  - Program Website
  - Agreements Management
  - Program Cost Control System
  - Program Schedule Control System

- Organizational Framework
PM/CM PROCESS

- Don’t under estimate the complexities
- Provide needed expertise
  - Best use of in-house staff
  - Special expertise where and when needed, but, only as long as needed
  - Clear lines of responsibility and authority

Resources – Optional Approaches

- District
- Program Manager
Program Implementation

Program Management

Program Elements

- Community
- Sites
- Design
- Construction
- Schedule
- Finance
- Ed Specs
- Cost
- O&M
- Master Plan
- Safety
- Risk
- DSA
- Technology
Program Implementation

• Do We Need a PM/CM Firm?
  – How large is your program?
  – What are your in-house capabilities?
• Staff
  – Knowledgeable?
  – Available?
• Management Systems
