How to Access Transfer Level Gateway Completion Dashboard
by Statewide or College View or by Regional View

https://www.cccco.edu/About-Us/Chancellors-Office/Divisions/Educational-Services-and-Support/transfer-level-dashboard

Transfer Level Gateway Completion Dashboard

The Transfer Level Gateway Completion dashboard provides completion rates of transfer-level English, mathematics (or equivalent quantitative reasoning course), and credit ESL starting from students' first course enrollment in the discipline (whether at or below transfer-level).

Statewide or College View

The Statewide or College View (first tab) in the dashboard allows users to select a college, discipline, timeframe to completion, starting course level, and term of first enrollment (Fall or Spring). The number of disaggregations is available, including for ethnicity, gender, high school grade point average (GPA), and program participation (e.g., Putert, Mesa, DSPS, etc.), with disproportionate impact, where observed, noted for each disaggregation.

English Transfer-Level Completion Rates: Disaggregated (PPG-1 methodology)
Regional View

The Regional View (second tab) in the dashboard allows users to compare transfer level completion rates by region or across a selection of colleges within the state and select various filters including discipline, starting course level, and timeframe to completion. This view is designed to assist colleges in finding appropriate comparisons and/or potential local colleagues at other institutions to support institutional efforts at improvement. While this view does not support full display of disaggregated data available in the Statewide of College View, it does summarize key disproportionate impacts for transfer level gateway completion across the region or colleges selected.
