

SOLANO COLLEGE ASSESSMENT NEWS

October 25, 2017 Volume 13

ATTACH YOUR COMMON RUBRICS IN THE COURSE OUTLINE OF RECORD!

- Common student success rubrics can be attached in the official course outline of record. Whether you are doing an SLO only change, a course modification, or proposing a new course, there is an “Attach Files” gray tab on the left of your screen. Attaching the common rubric in the official course outline of record makes it easy for everyone to find and use!

We are at
about

30%

completion for
our SLO input
goals

Help Your School Win the SLO Contest!

All our SLOs need to be updated in META this semester.

Doing so is essential before we start assessing SLOs and PLOs in META. To incentivize getting this work done, our Superintendent President has agreed to sponsor a contest to reward schools who complete their updates by the end of the fall semester. Schools who finish their SLO updates this term will get their spring flex meeting catered. **Please help your colleagues meet the goal!** How are school doing so far? Many discipline have started one or two courses – here are programs who have made substantial progress: (Apologies if we missed anyone!)

Applied Technology and Business – Aero, Fire, Drafting, Office Technology, Business/Marketing/Management, Cosmetology, AutoTech, and Criminal Justice are either done or mostly done.

Counseling- Started but more to complete

Health Sciences – Both Kinesiology and Nursing have made significant strides

Liberal Arts – Art, Foreign Languages, ASL, Communications, Photo and ESL have made significant progress

Math and Sciences – Engineering, Physics, Math, Geology, Horticulture, Biology, Astronomy, and Chemistry are making progress or are complete.

Social and Behavioral Sciences – Anthropology, CDFS, Human Services, and Psychology are mostly complete

If you have questions about inputting your SLOs, success criteria, and mapping in META, please reference the SLO webpage <http://solano.edu/slo/> or contact your assessment or school coordinator
