Rationale

- To be representative of our college in relation to administration, classified, faculty, students, departments, and purpose.
- To be structured (students, faculty, student services, administration, special programs).
- At the same time be dynamic and fluid depending on the participation that semester (5 positions within those listed above as well as at-large seats).
- Have a large enough table for everyone to have a seat (so we are inclusive and don't have to waste a month restructuring every year).
