

# PRIDE SPACES

*In the words of Harvey Milk, "We want to recruit YOU!"*

**We are looking to launch a SCC student-centered organization that promotes student development and campus participation for students who identify as transgender, lesbian, gay, bisexual, queer, questioning, intersex, and diverse sexual/gender minorities and our allies.**

**We want to create a campus environment where LGBTQIA+ identities and issues are affirmed and supported through programming, student mentorship, scholarship fund development, and other initiatives.... and have a whole lot of fun in the process!**
