Student is looking to transfer to Cal Poly SLO for architecture. We added the math and physics courses required for that major (Solano does not have any of the Architecture requirements). Although he is planning to transfer in Architecture, student is looking to complete the engineering associate degree at Solano. Will research more if he wants to continue with this degree or just do the requirements needed to transfer to CSU SLO. For now, his ed plan will include the engineering degree. Advised student to make an appointment next semester for a full hour for a comprehensive ed plan. Student is taking 18.5 units this spring. I let him know that is a lot of units. But he stated he thinks it will work out as some of them are his sport.
